Royal College of Physicians of Edinburgh

Toxicology in the Acute Medical Unit

Thursday 2 July 2026

13:00 – 16:45

Online

Topics include:

- Acute recreational drug toxicity, including nitazenes, ketamine, and nitrous oxide
- Naloxone and flumazenil use before and in hospital
- Practical approaches to paracetamol overdose management
- ECG interpretation and management of mixed cardiotoxic overdoses
- Treatment refusal and assessment of capacity in toxicology settings
- Marine envenoming and poisoning presentations

Acute overdose and poisoning is a common presentation across UK emergency departments and acute medicine departments. This case-based afternoon webinar will focus on commonly seen scenarios, offering practical assessment and management advice.

All levels of clinicians within the emergency and acute medicine departments, from resident to consultant level.

Register now for this online event.
Catch up for registered delegates is available for 28 days post event.
