Organisation response:

Please add comments to the following table noting the section number and page number to which your comment refers.

Note 'general' in the section column if your comments relate to the whole document.

Section	Page #	Comment
6.1.4	72	Final sentence – 'explain' should be 'explaining'.
General		This is a comprehensive 124 page document outlining the investigation and management of an increasingly important and clinically relevant problem in the day to day work of respiratory physicians, radiologists and thoracic surgeons. The figures are particularly helpful in summarising the recommendations and the document appears well balanced and authoritative. We have no further concerns regarding its accuracy or content and it will be an extremely useful guideline.

Please add rows to this table as required.

Please return the completed form to:
